Cosmetic Product Notification Portal

The Cosmetic Products Notification Portal (CPNP) is an online notification system created for the implementation of Regulation (EC) No 1223/2009 on cosmetic products. When a product has been notified in the CPNP, there is no need for any further notification at national level within the EU.

Regulation (EC) No 1223/2009 (Article 13) requires that the responsible persons and, under certain circumstances, the distributors of cosmetic products submit some information about the products they place or make available on the European market through the CPNP.

The CPNP is making this information available electronically to:

- Competent Authorities (for the purposes of market surveillance, market analysis, evaluation and consumer information)
- Poison Centers or similar bodies established by EU countries (for the purposes of medical treatment).
